

In collaboration with

Coaching in the Classroom

3 sessions- Wednesday afternoons from 4:00-6:00 pm

You are a coach and the game is education. We all have our own unique style and for that reason, it is critical that we share our methods for "game planning". Join us as we explore the ways that methods of athletic coaching translate from fields and courts to the classroom/administration of a building. Topics will include:

- 1. Why are coaching teams and coaching kids similar?
- 2. What coaching methods are critical to classrooms that are sometimes overlooked?
- 3. How can my daily plans or to do list work in what coaches have used for years?
- 4. In what ways are the latest educational theories just academic ways of stating what athletics have used always.
- 5. How can I implement these concepts in my daily plans to prepare for the end game?
