## Integrated Services for ELLs through Collaborative and Co-teaching Strategies: Responding to Diverse Student Needs

*Presenter: Andrea Honigsfeld*

The purpose of this workshop is to explore a comprehensive framework for collaborative practices for general education teachers and ESOLL specialists. The goal of the workshop is twofold: (1) to help participating educators engage in critical conversations and action planning around collaborative practices and (2) to review, evaluate, and adapt several co-teaching models that promote differentiated, integrated service delivery in K-12 instructional settings. It is highly recommended that co-teaching pairs and/or collaborative teams along with a coach or administrator attend this workshop together.

Participants will receive a copy of Andrea's book *Collaboration and Co-Teaching Strategies for English Learners*
