

Utilizing NASA Educational Resources in the Classroom

Description:

This interactive workshop will introduce you to NASA'S Earth, Astrophysics, and Heliophysics, and Planetary Science Missions. Participates will learn of the numerous NASA educational resources available to them when teaching STEM (Science, Technology, Engineering, Math) topics. Learn about the websites, curriculums, DVDs, visual learning aids, distance learning opportunities, student NASA opportunities, and other exciting and innovative NASA resources available to teachers. Teachers will also receive lots of free material to take back to their classroom.

Date: Monday, March 26, 2012 **Time:** 4:00 – 7:00 pm
